

The Down Low of a Capture Photography Boudoir Experience

Welcome to the best experience of your life. This isn't any ordinary boudoir shoot it's a Capture boudoir shoot. Capture Photography is known for their amazing, comfortable and invigorating boudoir shoots that women all over New England have fallen in love with. The shoot begins long before you walk into our doors. The shoot starts over the phone where you and I will talk about everything except photography. I want to know who you are, what you love, where you are in your life and how you ended up booking a boudoir session at this point. We will chat about a location and what fits your style best. I'll also want to include your significant other in a separate conversation. I know, I know, you want this to be a surprise but trust me, we want him/her involved. Whether that means they are in the shoot or we have their input about their most favorite features of you that I would never know about, we love to include your partners feedback. After I get to know you two we have the amazing shoot. During the shoot its all about having fun and being you. I want to get to know your authentic self because I want to photograph your authentic self because that is the most beautiful self that exists. That is where you get to shine and walk out of here feeling like a supermodel/superhero. Directly after your shoot on the same day you'll get to see all the photos from the gallery and be able to pick what you want to do with them, right there! We'll chat about what products fit your needs and before you leave you'll know what artwork or album is going to be come a part of your home! So what are you waiting for? Let's get this started!

FAQ

Where do we do the shoot?

We shoot here, there or anywhere :) Normally we shoot at the Capture studio (which is in my home in West Hartford) but we can also do it in your home if you have some nice big bright windows and plenty of room to spread out! I am also obsessed with outdoor boudoir which can be accommodated if simply given enough notice. For a small additional fee we can also rent a hotel room.

What should I bring?

Think about the clothes that make you feel sexy. Lingerie is great but so are old t-shirts, your partner's button down, or a loose shirt that goes off your shoulders. Think of that one outfit that you always feel sexy in, bring that- the whole outfit! Don't forget to accessorize bring fun scarfs, lots of heels, jewelry, hats or anything else that makes feel like the sexy badass that you are! Your best bet is to bring more than you anticipate wearing- we will take a look at everything you bring and style the shoot from there. The more you bring the better.

Can I bring a friend to the shoot for support?

Absolutely! I find that people are most comfortable and their silly selves when a good friend is around. Anyone is welcome to join you on the fun and simply be your moral support. (no camera use allowed in studio including cell phone once shoot begins)

Do you do boudoir parties?

Yes we do! It's an awesome alternative to bachelorette parties. We book in groups from 4-9. Each girl gets a "30 minute mini-session," and yes hair, makeup and champagne is included! Prices start at \$1,000.

I don't know how to pose sexy...

Well the good thing is I do! I will be helping you the entire time during the shoot. You will be guided throughout the process on what to do, where to look, how to move your arms and pop those hips! And don't worry, your

comfort level is the most important thing to me so as I guide you, we can decide together what feels best!

What do people normally do with these photographs?

Normally people do one of two things- they either buy prints and frame their favorites for themselves or their partner but the most popular thing to do is to create a “**Little Black Book**,” which has twenty of your favorite photos from the session. This book can have a personal inscription on the front and looks like this!

Tips for a successful boudoir session

What to do the week of:

- Exfoliate for 7 days prior to the shoot to ensure your skin is shiny and beautiful!
- Buy something new, that's right, I'm asking you to spend more money! Haha, but there is nothing like the feeling of wearing something new to get your confidence on :)
- Make sure your finger and toe nails are looking good, they will be in the pics too!
- Shave or wax two days before
- Cut size/information tags from any lingerie
- Brush your lips with a toothbrush to remove dry skin

What to do the day of:

- Wear loose clothing and loose underwear, we don't want any lines on your body, try not to wear a bra if possible (showing up braless and pantyless gives you bonus points! That means your skin is ready to be photographed!)
- Drink PLENTY of water (you will be working your body in many different positions and it may even feel like a light workout at times)
- Eat a light breakfast or lunch, enough to fill you but not too much to bloat you
- Moisturize your skin

What to bring the day of:

- Lots of clothing options, mix and match underwear sets, tshirts, at least one pair of black underwear and one pair of heels
- Lip gloss for touch ups and powder to absorb any oil on the face
- Think outside the box of just lingerie, perhaps comfy pjs, an old t-shirt or your partners favorite team jersey
- Have a sexy off the shoulder top? Those are awesome and good place to start the shoot!
- Accessories, don't forget a pop of color for jewelry, pearls, hats or anything else we can add to your "outfit"

PLEASE MAKE SURE TO SHOW UP ON TIME AND GIVE YOUR SELF EXTRA TIME TO FIND OUR NOT -SO-EASY TO FIND STUDIO. WE OFTEN DO BACK TO BACK SHOOTS AND WE DONT WANT TO CUT YOUR SHOOT SHORT BY ANY AMOUNT OF TIME! Now all thats left to do is- GET EXCITED!
